Enter "0" in the "Contributions" box and click on "Continue":

 **Need to know the limits for this year?**
Because of tax advantages associated with retirement accounts, the IRS sets contribution limits. [Explore IRS Limits](#)

Step 1 of 2
How Much Do you Want to Contribute?

Choose how much of each paycheck you'd like to go toward your retirement savings. You can offset this by changing your contributions.
If you select Sign me up for Auto Increase, you must enter at least one contribution.

Pre-Tax Contribute by \$ or % of pay? \$ %

Min: 0% | Max: 75%

Pre-Tax Contributions ⓘ % 

Total amount:
0%

Take advantage of auto-increase. It's easy and can help you stay on track for reaching your retirement goals! ⓘ

 **The Benefit of Saving Early**
When you start saving early, your money has time to grow from the effects of compound interest.

[Watch Your Money Grow — Use Our Savings Calculator](#)

Compound interest is interest you earn on interest, or interest earned on both your initial principal and accumulated interest over time. Compound interest allows your savings to grow faster than interest calculated only on the principal amount.

Verify your "Contribution Amount" is set to "0" and click on "Submit":

Change Contributions Amount [Cancel](#)

Step 2 of 2
Verify Your Changes

You have chosen to opt-out of systematically increasing your contribution deferrals.
