

## R.O.A.D. Ready - Roadway Safety

R.O.A.D. Ready is a TML Risk Pool program designed to save lives, prevent injuries, and protect property by raising awareness of dangers on and near roadways. The City has made a commitment to becoming R.O.A.D. Ready and January has been designated R.O.A.D. Ready Month.

Is your entity R.O.A.D. Ready?

- Recognize the Hazards;
- Observe People, Processes, and Equipment;
- Assess the Risk Level; and
- Determine the Safest Course of Action.

During the month of January and February, departments will be asked to share various R.O.A.D. Ready safety topics with their employees via safety meetings or tailgate talks on a weekly basis.

ROAD Ready Topic Scheduler	
Week of January 5	Backing, Runover & "Backover", Workzone Safety
Week of January 12	Debris Removal, Right-of-Way Maintenance Operations
Week of January 19	Vehicle Operations and Traffic Safety, Distracted Driving
Week of January 26	Heavy Equipment Operations, Utility Line Strikes, Mowing Operations (if applicable)
Week of February 2	Pre-Trip Inspections, Auto Accidents
